

The quickest & easiest way to create expense reports

Franchises: Manage and operate your franchises more efficiently and reduce time wasted on expense reporting.

ABUKAI provides a great way to keep track of expenses for staff and managers operating franchises. **ABUKAI Expenses** is easy to use even for staff not as familiar with technology. Franchisees and their staff can easily use the service at different locations, without having to key in information and/or mail in receipts. ABUKAI eliminates all the cumbersome work associated with expense reports including typing data from receipts, and categorizing expenses. Employees spend less time completing expense reports and more time on productive tasks, leading to greater efficiency. A less cumbersome process can also increase worker satisfaction and reduce turnover.

Step 1. Simply take a picture of each receipt while on the road, on-site or in the office.

Step 2. Press "Submit" whenever you are ready.

Users will receive their finished expense report with cost categorization, date, vendor, amount and all the other information already filled in. In only 2 steps! Expense reports can also be immediately forwarded to central bookkeeping or finance teams for review, and processing allowing for greater financial controls.

Instead of having to manually enter each expense entry, with ABUKAI Expenses, users only need to take a picture of the receipt anywhere they go. Staff does not have to carry around special equipment or a laptop. They simply need a standard Android, iPhone or BlackBerry mobile device that they usually already have with them.

**Case Example:** One of KFC's largest franchisees is Tennessee-based JRN, which operates about 200 franchises across 11 states. Employees with JRN help serve the more than 12 million customers who visit KFC daily in the U.S. and around the globe, ordering up its Original Recipe® fried chicken and other menu items. JRN's locations are among KFC's 5,200 restaurants in the U.S. and more than 15,000 restaurants internationally.

*"Before using ABUKAI to complete expense reports, my team and I were having to hold on to receipts throughout the month. We often misplaced receipts which would cause us to forget and not get reimbursement for company expenses. The brutal part of doing an expense report was having to put each receipt in date order, put each one on an excel sheet line by line, type in specifics, scan the receipt and hours later...finally get it submitted to accounting for processing. This was a tedious task that no one wanted to do. I hated it so much I often offered my teenage son a percent of the reimbursement if he would do it for me. I also found that my team struggled with getting their expense reports done on time for the same reason.*

*Since I've been using ABUKAI, I can get my expense report done within 5 minutes! I take pictures of receipts as I go so that I don't have to keep up with them. This process works really well for me and the team. After introducing this to my team, I became a hero in their eyes. Which was pretty cool. I am a huge fan of ABUKAI and if I had to give it a rating it would be 5 out of 5 stars!!!"*

**Ludly Moreno, Region Director**
