

The quickest & easiest way to create expense reports

Building Supplies and Manufacturing: Run your business effectively with ABUKAI - and change the game.

Suppliers frequently incur expenses in their sales efforts, service or field support, or also their manufacturing and R&D efforts. Organizing the receipts and creating reports is often a chore and such processes may not always get followed properly, resulting in incomplete, late, incorrect or non-compliant expense reports.

ABUKAI Expenses offers the industry's fewest clicks solution to creating expense reports. An employee simply snaps a photo of a receipt and ABUKAI's industry-leading, patented receipt recognition technology assembles the whole expense report - without the employee having to waste precious time keying in information. ABUKAI delivers a structured expense report fully with expense categorization and itemizations where needed (such as for hotel receipts). Electronic receipts can be forwarded to an employee's designated expensereport email address.

ABUKAI can also integrate with existing ERP or accounting systems for record keeping, as well as job tracking software. ABUKAI also offers workflow solutions such as approval rules and policies as companies scale. Expenses can be assigned to projects or work orders, and ABUKAI can distinguish reimbursable from corporate card expenses, and automatically reconcile card statements with the receipts.

Case Example: Atlas Hose & Gasket is an industrial hose, gasket & belting distributor. With millions of dollars of inventory on hand, Atlas Hose & Gasket can provide specific recommendations for your applications and deliver them with ease and precision. Atlas Hose & Gasket can provide custom lengths of rubber hose, metal hose, couplings, fittings, custom cut gaskets in a wide variety of gasket material, metal gaskets, V-belts, belting, O-rings, compression packing, matting, sponge, skirtboard, expansion joints, extrusion and more. All products can be customized specifically to your needs with a quick turnaround and great service from our experts. Atlas Hose & Gasket provides 24/7 call-out service.

"One of the biggest hassles of sales was keeping up with my expenses. Keeping the receipts, making the reports - I hated the process.

ABUKAI is a total game changer - You take a picture of the receipt and ABUKAI itemizes, categorizes, totals and emails your report.

If you're not using ABUKAI for your expense reporting you're walking instead of running."

Dave Crawford, Sales Manager
