ABUKAI Expenses™

ABUKAI's first solution is called ABUKAI Expenses. ABUKAI Expenses is the quickest and easiest way to create expense reports. ABUKAI Expenses eliminates the tedious activities associated with completing expense reports, including typing data from receipts, categorizing expenses and looking up currency exchange rates.

With ABUKAI it takes only 2 steps to complete and submit an expense report.

- Step 1. Simply take a picture of each receipt while on the road or in your office.
- Step 2. Press "Submit" whenever you are ready.

A completed expense report is sent to your email address with date, vendor and all other information already filled-in for you. We can even customize expense reports to match a specific company format and integrate with existing Expense Management Systems.

Based on customer feedback, ABUKAI Expenses has been found to reduce the time and effort it takes to create expense reports by over 80%. ABUKAI Expenses is currently deployed at a range of corporate customers, and available for download at the App Store, BlackBerry App World and the Android Market.
